## About Me

I am a highly motivated 9th-grade student passionate about web and mobile development. I enjoy building real-world projects, experimenting with modern technologies, and continuously expanding my programming skills. I am actively exploring frontend, backend, animations, and 3D web experiences while preparing for advanced development and AI-driven applications.

## Skills & Technologies

Programming & Web: HTML, CSS, JavaScript, React.js

Mobile: React Native, Expo (learning)

Styling & Animations: Tailwind CSS, GSAP, React Three Fiber (R3F)

⚙ Backend: Node.js, Express.js

Database: MongoDB

Tools: Git & GitHub, VS Code

---

## Projects

Personal Portfolio Website — Built with React.js

Animated MacBook Landing Page — R3F + GSAP + React

Project A — Next.js + R3F + MongoDB (In Progress)

Project B — Next.js + MongoDB

- Authentication
- Payment Integration (Razorpay)
- AI Features with OpenAI API (In Progress)

## Learning & Activities

Online coding courses (YouTube, Udemy)

Coding challenges (LeetCode, HackerRank)

Exploring web development, mobile apps, animations, and 3D experiences

---

## Current Status

100% Ready to Learn, Build, and Grow!
